To Whom It May Concern:

This letter is to confirm that CyberSearch Ltd. has contracted Dinesh Kurella for the consulting services from Strategic Resources International to provide technical services to the end-client, UBS. CyberSearch Ltd has utilized the services of Dinesh Kurella and Strategic Resources International since 03/17/2016, during which time they have been providing technical consulting services to the end client UBS through our client Accenture. They have been engaged as a UI Developer with appropriate experience and educational background.

A signed "Master Consulting Services Agreement" between CyberSearch Ltd. and Accenture cannot be provided because of the "Confidentiality and Non-disclosure Information" section of the Agreement. However, we, CyberSearch Ltd., do substantiate that our Agreement with our client is long term. Dinesh Kurella, whose employer of record is Strategic Resources International will continue to provide the services listed below, of UI Developer, on a contract basis to our client.

- Development of cross-browser compatible web pages using HTML/HTML5, JavaScript, AJAX, AXIOS, CSS/CSS3 React, Redux, Flux, D3, BootStrap, React Native, Webpack for build configuration and nodejs package manager(npm).
- Use ReactJS components, to create interactive event handling using SyntheticEvents & nativeEvent. Work on usage metrics and also end to end events tracing for analysis using Dynamic Tag management.
- Implement UI mockups using Adobe Illustrator or Balsamiq Mockups, integrating third-party React libraries - semantic UI, MobX, Enzyme, React Virtualized, Redux Form, React DnD and React Intl. Develop Field level validation (utilizing regular[Regex] expression) for forms including focus field and asynchronous validation.
- Create dynamic graphical user designs like Histogram, Pie Chart and Heat Map using D3(Data-Driven Documents) with HTML5 <canvas> & <svg> elements. Create common glyph-icons library using INKSCAPE graphics editor tool and use glyphs throughout the application.
- Utilizing ag-grid develop tables to show advanced data. Create features like Grouping, Tree structure, and Aggregation. Generate raw data to CSV export, Excel export and pdf in a printable format. Optimize the performance of grid using Transitions and scroll events.

While Dinesh Kurella is working for us as a contractor, this fact shall not render Accenture, UBS, or CyberSearch, Ltd. liable as employer. Rather, the actual employer company, Strategic Resources

International, shall undertake responsibilities such as: payroll, hiring, firing, assigning, managing and controlling their work, additional employee benefits, Filing/Extending their H1B Visa and taking care of all immigration-related matters, according to relevant federal and/or state law, regulations.

If I can provide any further information or assistance with regard to this matter, please feel free to call me at 847-357-0200.

Sincerely,

Christopher Donovan
Vice President, Partner
CyberSearch, Ltd.
